A radically new way of thinking about form and context in literature, politics, and beyond *Forms* offers a powerful new answer to one of the most pressing problems facing literary, critical, and cultural studies today—how to connect form to political, social, and historical context. Caroline Levine argues that forms organize not only works of art but also political life—and our attempts to know both art and politics. Inescapable and frequently troubling, forms shape every aspect of our experience. Yet, forms don't impose their order in any simple way. Multiple shapes, patterns, and arrangements, overlapping and colliding, generate complex and unpredictable social landscapes that challenge and unsettle conventional analytic models in literary and cultural studies. Borrowing the concept of "affordances" from design theory, this book investigates the specific ways that four major forms—wholes, rhythms, hierarchies, and networks—have structured culture, politics, and scholarly knowledge across periods, and it proposes exciting new ways of linking formalism to historicism and literature to politics. Levine rereads both formalist and antiformalist theorists, including Cleanth Brooks, Michel Foucault, Jacques Rancière, Mary Poovey, and Judith Butler, and she offers engaging accounts of a wide range of objects, from medieval convents and modern theme parks to Sophocles's *Antigone* and the television series *The Wire*. The result is a radically new way of thinking about form for the next generation and essential reading for scholars and students across the humanities who must wrestle with the problem of form and context.

From its inception in the early 1900s, The United Church of Canada set out to become the national church of Canada. This book recounts and analyzes the history of the church of Canada's largest Protestant denomination and its engagement with issues of social and private morality, evangelistic campaigns, and its response to the restructuring of religion in the 1960s. A chronological history is followed by chapters on the United Church's worship, theology, understanding of ministry, relationships with the Canadian Jewish community, Israel, and Palestinians, changing mission goals in relation to First Nations peoples, and changing social imaginary. The result is an original, accessible, and engaging account of The United Church of Canada's pilgrimage that will be useful for students, historians, and general readers. From this account there emerges a complex portrait of the United Church as a distinctly Canadian Protestant church shaped by both its Christian faith and its engagement with the changing society of which it is a part.
