Host Bibliographic Record for Boundwith Item Barcode 30112044654090 and Others Random House India Accused of treason against the Wizards of the White Council, Warden Morgan goes in search of Harry Dresden in a desperate attempt to clear his name and stop the deadly punishment from taking place in this latest thrilling addition to the Dresden Files series. Press and National Movement in India, 1911-1947 Hachette Books Allama Mohammad Iqbal, whom Sarojini Naidu called the ' Poet laureate of Asia ', remains a controversial figure in the history of the Indian subcontinent. On the one hand, he is considered the ' Spiritual Father of Pakistan '. On the other, his message of Eastern revivalism places him in the ranks of the twentieth century ' s major intellectuals. Iqbal ' s tragedy was that after his death, he was made the national poet of Pakistan and largely ignored in India. In his time, he was lauded as much as Tagore, but today India celebrates Tagore while Iqbal has been banished from her consciousness. This meticulously researched biography will redress that erasure. This is the story of Iqbal ' s evolution as a poet, philosopher and politician. While his role in the struggle for India ' s freedom and the Pakistan movement are well known, not much is known about his personal life. This book highlights some of the least known facets of the poet ' s life: how did a nationalist poet transform into a poet of Islamic revivalism and global revolution? How did three years in Europe change Iqbal ' s political and philosophical outlook? Why did he start writing in Persian during his stay in Europe? Why did his first marriage fail and how did his romantic relationships

affect him? What exactly was the poet's role in bringing about Partition? Written with the passion of an ardent devotee, Zafar Anjum's Iqbal answers all of these questions—and many more—in this carefully told biography.

This book explores the aesthetic forms of the political left across the borders of post-colonial, post-partition South Asia. Spanning India, Sri Lanka, Pakistan and Bangladesh, the contributors study art, film, literature, poetry and cultural discourse to illuminate the ways in which political commitment has been given aesthetic form and artistic value by artists and by cultural and political activists in postcolonial South Asia. With a focused conceptualization this volume asks: Does the political left in South Asia have a recognizable aesthetic form? And if so, what political effects do left-wing artistic movements and aesthetic artefacts have in shaping movements against inequality and injustice? Reframing political aesthetics within a postcolonial and decolonised framework, the contributors detail the trajectories and transformations of left-wing cultural formations and affiliations and focus on connections and continuities across post-1947/8 India, Pakistan, Sri Lanka and Bangladesh.

The Well of Loneliness, first published in 1928, is a timeless portrayal of lesbian love. The thinly disguised story of Hall's own life, it was banned outright upon publication and almost ruined her literary career as the subject was that of an obscenity trial and forbidden at the time in England. The novel tells the story of Stephen, an ideal child of aristocratic parents—a fencer, a horse rider and a keen scholar. Stephen grows to be a war hero, a bestselling writer and a loyal, protective lover. But Stephen is a woman, and is attracted to women. As her ambitions drive her, and society incarcerates her, Stephen is forced into desperate actions. Although Gordon's attitude toward her own sexuality is anguished, the novel presents lesbianism as natural and makes a plea for greater tolerance. It became an international bestseller, and for decades was the single most famous lesbian novel.

Part of the 'Religion and Citizenship' series, this book is an ethnographic study of marginality of Muslims in urban India. It explores the realities and consequences of socio-spatial segregation faced by Muslim communities and the various ways in which they negotiate it in the course of their everyday lives. By narrating lived experiences of ordinary Muslims, the author attempts to construct their identities as citizens and subjects. What emerges is a highly variegated picture of a group (otherwise viewed as monolithic) that resides in very close quarters, more as a result of compulsion than choice, despite wide differences across language, ethnicity, sect and social class. The book also looks into the potential outcomes that socio-spatial segregation spelt on communal lines hold for the future of the urban landscape in South Asia. Rich in ethnographic data and accessible in its approach, this book will be useful for scholars and researchers of sociology, social anthropology, human geography, political sociology, urban studies, and political science.

This Intergovernmental Panel on Climate Change Special Report (IPCC-SREX) explores the challenge of understanding and managing the risks of climate extremes to advance climate change adaptation. Extreme weather and climate events, interacting with exposed and vulnerable human and natural systems, can lead to disasters. Changes in the frequency and severity of the physical events affect disaster risk, but so do the spatially diverse and temporally dynamic patterns of exposure and vulnerability. Some types of extreme weather and climate events have increased in frequency or magnitude, but populations and assets at risk have also increased, with consequences for disaster risk. Opportunities for managing risks of weather- and climate-related disasters exist or can be developed at any scale, local to international. Prepared following strict IPCC procedures, SREX is an invaluable assessment for anyone interested in climate extremes, environmental disasters and adaptation to climate change, including policymakers, the private sector and academic researchers.

Heart of Darkness

"We cannot change the cards we are dealt, just how we play the hand."---Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters

most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy?

When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.
