James Fenimore Cooper was a prolific and popular American writer of the first half of the 19th century. His historical romances of frontier and Indian life in the early American days created a unique form of American literature. The wild rush of action in this classic frontier adventure story has made *The Last of the Mohicans* the most popular of James Fenimore Cooper's novels. Deep in the forests of upper New York State, the brave woodsman Hawkeye (Natty Bumppo) and his loyal Mohican friends Chingachgook and Uncas become embroiled in the bloody battles of the French and Indian War.

The Last of the Mohicans is a historical novel by James Fenimore Cooper, first published in January 1826. It was one of the most popular English-language novels of its time. Its narrative flaws were criticized from the

start, and its length and elaborately formal prose style have reduced its appeal to later readers. Regardless, *The Last of the Mohicans* is widely read in American literature courses. This second book of the *Leatherstocking Tales* pentalogy is the best known. *The Pathfinder*, written 14 years later in 1840, is its sequel. Cooper named a principal character Uncas after the most famous of the Mohicans. The real Mohicans lived in the colony of Connecticut in the mid-seventeenth century, and not in the New York frontier a century later. Uncas was a Mohegan, not a Mohican, and Cooper's usage has helped to confuse the names of two tribes to the present day. When John Uncas, his last surviving male descendant died in 1842, the *Newark Daily Advertiser* wrote "Last of the Mohegans Gone" lamenting the extinction of the tribe. The writer was not aware that Mohegans still existed then and to the present day. The story takes place in 1757 during the Seven Years' War (known in America as the French and Indian War), when France and the United Kingdom battled for control of the American and Canadian colonies. During this war, the French often allied themselves

with Native American tribes in order to gain an advantage over the British, with unpredictable and often tragic results.

Last of the Mohicans Library of Alexandria
The Last of the Mohicans is a historical novel by James Fenimore Cooper. The story is set in 1757, during the French and Indian War (the Seven Years' War), when France and Great Britain battled for control of North America. During this war, the French depended on its Native American allies to help fight the more numerous British colonists in the Northeast frontier areas. The Last of the Mohicans has been James Fenimore Cooper's most popular work. It has continued as one of the most

widely read novels throughout the world, and it has influenced popular opinion about American Indians and the frontier period of eastern American history. The romanticized images of the strong, fearless, and ever resourceful frontiersman, as well as the stoic, wise, and noble "red man" were notions derived from Cooper's characterizations more than from anywhere else. The phrase, "the last of the Mohicans," has come to represent the sole survivor of a noble race or type.

This volume brings together the current theoretical interest in reconceptualizing second and foreign language learning from a sociocultural perspective on language and learning, with practical concerns about second and foreign language pedagogy. It presents a set of studies whose focus is on the empirical description of particular practices constructed in classroom interaction that promote the learning of a second or foreign language. The authors examine in detail the processes by which the learning of additional languages is accomplished in the interaction of a variety of classrooms and in a variety of languages. Not only will the findings from the studies reported in this volume help to lay a foundation for the development of a more expansive, sociocultural model of second and foreign language learning, but on a more practical level they will help language educators in creating a set of principles for identifying and sustaining classroom interactional practices that foster additional language development. The volume is distinguished in three ways: * Following a Vygotskian perspective on development, the studies assume that language learning is a fundamentally pragmatic enterprise, intrinsically linked to language use. This

breaks from a more traditional understanding of second and foreign language learning, which has viewed learning and use as two distinct phenomena. The importance of classroom interaction to additional language development is foregrounded. * The investigations reported in this book are distinguished by their methodological approach. Because language learning is assumed to be a situated, context-sensitive, and dynamic process, the studies do not rely on traditional experimental methods for collecting and analyzing data, but rather, they involve primarily the use of ethnographic and discourse analytic methods. * The studies focus on interactional practices that promote second and foreign language learning. Although a great deal of research has examined first language learning in classrooms from a sociocultural perspective, little has looked at second and foreign language classrooms from such a perspective. Thus there is a strong need for this volume of studies addressing this area of research.

Researchers, teacher educators, and graduate students across the fields of second and foreign language learning, applied linguistics, and language education will find this book informative and relevant. Because of the programmatic implications arising from the studies, it will also appeal to teacher educators and teachers of second and foreign languages from the elementary to the university levels.

The Last of the Mohicans is an epic novel by James Fenimore Cooper, first published in January 1826. It was one of the most popular English-language novels of its time, and helped establish Cooper as one of the first world-famous American writers. The story takes place in 1757 during the French and Indian War, when France and Great Britain battled for control of the American and Canadian colonies. During this war, the French often allied themselves with Native American tribes in order to gain an advantage over the British, with unpredictable and often tragic results. After the Cooper text comes Mark Twain's caustic, funny, and damning "Fenimore Cooper's Literary Offenses." Wherein Twain takes deadly aim at the casual manner in which Cooper wrote. Together for the first time these two classics are perfect counterpoints to one another.

This comprehensive volume contains twenty-six out of thirty three papers that were presented at the International Conference on "Les Périphrases Verbales". The conference took place at the University of Caen-Basse-Normandie from June 25th to June 28th 2003, and was co-organized by the Crisco umr cnrs research group and the French Department at Tel Aviv University, Israel. The contributors to this volume aim to present a broad spectrum of theoretical approaches to the analysis of constructions entitled "périphrases verbales". Their work revolves around three central themes: the definition of these constructions and the distinction between certain verbal expressions and true periphrastic expressions; a particular meaning or function of these expressions; and specific nominal constructions considered as periphrastic expressions. The volume is divided into seven sections, each throwing light on a particular aspect of periphrastic expression from various perspectives. The issues discussed are: temporal and aspectual periphrases; auxiliaries, copula, and support verbs; causative periphrases; venire and aller + infinitive / participle; inchoative periphrases; modal periphrases; and the heritage of Gustave Guillaume.

This book shows that the notions developed within the Cognitive Linguistics movement afford an insightful perspective on several important areas of second language acquisition and pedagogy. The key concepts commonly invoked in cognitive analyses such as the usage-based conception of grammar, the radial organization of categories, metaphors, or cultural scripts, do

not only represent powerful constructs within which the process of second language acquisition can be valuably investigated, but also allow teachers to successfully introduce problematic material in the foreign language classroom.

My book, Ysmaels Poems, is about adult experiences, family, myself, spirituality, fun, death, life, and going for excursions. It is based on my life and how I see the world. Through each of my varied topics, I learned a lot about life each day. I am learning more from my worldexternal and internal. It is a book on Judaism through my poems, Judeo-Spanish, communing with my ancestors, and appreciating a sunny Southern California day. I am very gregarious, intense, and alive with my poems. I wrote about Old Town San Diego, San Diego, Visions clubhouse, Temecula, National City and Chula Vista, and even Balboa Park or the San Diego Zoo. Sometimes I go to House of Pacific Relations (HPR) with the little cottages such as the House of Scotland, Israel, or the House of France.
