Doctor Faustus is a classic; its imaginative boldness and vertiginous ironies have fascinated readers and playgoers alike. But the fact

that this play exists in two early versions, printed in 1604 and 1616, has posed formidable problems for critics. How much of either version was written by Marlowe, and which is the more authentic? Is the play orthodox or radically interrogative? Michael Keefer's early work helped to establish the current consensus that the 1604 text was censored and revised; the Keefer edition, praised for its lucid introduction and scholarship, was the first to restore two displaced scenes to their correct place. Most competing editions presume that the 1604 text was printed from authorial manuscript, and that the 1616 text is of little substantive value. But in 2006 Keefer's fresh

analysis of the evidence showed that the 1604 quarto's Marlovian scenes were printed from a corrupted manuscript, and that the 1616 quarto (though indeed censored and revised) preserves some readings earlier than those of the 1604 text. This edition has been updated and revised. Keefer's critical introduction reconstructs the ideological contexts that shaped and deformed the play, and the text is accompanied by textual and explanatory notes and excerpts from sources. A Bibliography of the Japanese Empire Penn State Press The quintessential style, cooking,

and home interior book from Soho House, the world's leading members club. Since the first Soho House opened its doors over 25 years ago, we've learnt a bit about what works. Contemporary, global yet with something quintessentially English and homely at its heart, this is Soho House style explained by its experts: - From planning a room to vintage finds: bringing the Soho House look home. - Our House curator's advice on how to

buy, collect and hang art. - The art of a great night's sleep: how to design the perfect bedroom. - No-fuss recipes and chef's tips: here's how to make your favourite House dishes. - Inside Babington: our take on country-house living. Wellies optional. - Flip-flop glamour and poolside style from Soho House Miami Beach. - All the secrets of cocktail hour: House tonics and barman's tips. - Spa treatment at home, DIY

facials and chocolate brownies. Eat Drink Nap, a 300-page highly illustrated book, with a foreword from founder Nick Jones, and photography from leading food and interiors photographers Mark Seelen and Jean Cazals, shares the Soho House blueprint for stylish, modern living, the Soho House way. _____
_____ Readers love EAT, DRINK, NAP: 'A fun and stylish guide to a better life' 'A perfect coffee

table book!' 'I love it and people comment and do flick through it when they are at my home' 'Simple but elegant. . . and chocked full of beautiful pictures and wonderful information for making your house a home.' The Industrial Revolution in Iron National Geographic Books The essays in this volume, each written by an acknowledged expert in the field, trace the fortunes of British coal

technology as it spread across the European continent, from Sweden and Russia to the Alps and Spain, and supply an authoritative picture of industrial transformation in one of the key industries of the 19th century. In this period iron making in continental Europe was transformed by the take-up of technologies such as coke smelting and iron puddling that had already revolutionised the British iron

industry. The transfer of British technologies was fundamental to European industrialisation, but that transfer was not straightforward. The techniques that had proved so successful in Britain had to be adapted to local circumstances elsewhere, for charcoal-fired techniques proved surprisingly durable. More often than not, as these studies show, coal-fired methods were incorporated into traditional production

systems, making for the proliferation of technological hybrids. Overall, it is diversity that stands out. Some European regions (southern Belgium) came near to the British model; others (Spain) persisted with charcoal technology into the late 19th century. Some countries (Sweden) adopted British organisational principles but not the reliance on coal; others (Russia) maintained

different iron making sectors - one coal-based, the other loyal to charcoal - in parallel.

British Books

Librairie Droz

After the accession of Elizabeth I in 1558, Protestant England was beset by the hostile Catholic powers of Europe, including Spain. In October 1585, King Philip II of Spain declared his intention to destroy Protestant England and began preparing invasion plans, leading to an intense intelligence war between the two countries and culminating in the dramatic sea battles of 1588. Popular history dictates that the defeat of the Spanish Armada was a David versus

Goliath victory, snatched by plucky and outnumbered English forces. In this tightly written and fascinating new history, Robert Hutchinson explodes this myth, revealing the true destroyers of the Spanish Armada—inclement weather and bad luck. Of the 125 Spanish ships that set sail against England, only 60 limped home, the rest wrecked or sank with barely a shot fired from their main armament. In this dramatic hour-by-hour, blow-by-blow account of the Spanish Armada's attempt to destroy Elizabeth's England, Hutchinson spins a compelling and unbelievable narrative. Using everything from contemporary

eyewitness accounts to papers held by the national archives in Spain and the United Kingdom, Robert Hutchinson re-creates one of history's most famous episodes in an entirely new way.

Bridging the fields of

conservation, art

history, and museum

curating, this volume

contains the principal

papers from an

international

symposium titled

"Historical Painting

Techniques,

Materials, and Studio

Practice" at the

University of Leiden

in Amsterdam,

Netherlands, from

June 26 to 29, 1995.

The symposium—desi

gned for art

historians,

conservators,

conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and

descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century. **Radicals in Exile** Potts Point, NSW, Australia : Hordern House The Lloyd's Register of Shipping records the details of merchant vessels over 100 gross tonnes, which are self-propelled and sea-going, regardless of classification. Before

the time, only those vessels classed by Lloyd's Register were listed. Vessels are listed alphabetically by their current name. [The Illustrated London News](#) Macmillan Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the

reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear:

assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress

and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators. *General Catalogue of Printed Books to 1955* Getty Publications Folger Shakespeare Library The world's leading center for Shakespeare studies Each edition includes: ? Freshly edited text based on the best early printed version of the play ? Full explanatory notes conveniently placed on pages facing the text of the play ? Scene-by-scene plot summaries ? A key to famous lines and

phrases ? An introduction to reading Shakespeare's language ? An essay by an outstanding scholar providing a modern perspective on the play ? Illustrations from the Folger Shakespeare Library's vast holdings of rare books Essay by Gail Kern Paster The Folger Shakespeare Library in Washington, D.C., is home to the world's largest collection of Shakespeare's printed works, and a magnet for Shakespeare scholars from around the globe. In addition to exhibitions open to

the public throughout the year, the Folger offers a full calendar of performances and programs. *Manuel Du Libraire Et de L'amateur Des Livres* Hackett Publishing The definitive translation by Dick Davis of the great national epic of Iran—now newly revised and expanded to be the most complete English-language edition A Penguin Classic Dick Davis—“our pre-eminent translator from the Persian” (The Washington Post)—has revised and expanded his acclaimed translation of Ferdowsi’s masterpiece, adding more than 100 pages of newly translated text. Davis’s elegant

combination of prose and verse allows the poetry of the Shahnameh to sing its own tales directly, interspersed sparingly with clearly marked explanations to ease along modern readers. Originally composed for the Samanid princes of Khorasan in the tenth century, the Shahnameh is among the greatest works of world literature. This prodigious narrative tells the story of pre-Islamic Persia, from the mythical creation of the world and the dawn of Persian civilization through the seventh-century Arab conquest. The stories of the Shahnameh are deeply embedded in Persian culture and beyond, as attested by their appearance in such works as *The Kite*

Runner and the love poems of Rumi and Hafez. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

A Bibliography of the Japanese Empire: From 1859-93 A. D. [Vith year of Ansei
Broadview Press
This is a unique

reference work consisting solely of information about proper names having importance in the English-speaking world. English and native spellings, pronunciations, and essential facts are given about more than 100,000 names such as persons, places, events, plays and operas, works of fiction, literary characters, works of art, mythological and legendary persons and places, etc.

Doctor Faustus - Second Edition
Penguin
A comprehensive reference guide to the history and literature of exploration, travel and colonization from the earliest times to the year

1800. The vast scope of the Encyclopedia of Exploration makes it a work unlike any other in its combination of historical, biographical and bibliographical data. It includes a catalogue of all known expeditions, voyages and travels, as well as biographical information on the travellers themselves, which places them in their historical context. The Encyclopedia of Exploration to 1800 is a massive undertaking resulting in a work

that extends to 1.2 million words in almost 1200 pages. The 2327 major articles have generated index entries totalling more than 7500 names of persons or ships mentioned in the text. Within the text itself there are about 4000 cross-references between articles. Altogether nearly 20,000 bibliographical citations accompany the articles. A considerable quantity of information in this book is presented here for the first time in English.

Supplementary

Papers

This brisk retelling of Le Morte D'Arthur highlights the narrative drive, humor, and poignancy of Sir Thomas Malory's original while updating his fifteenth-century English and selectively pruning over-elaborate passages that can try the patience of modern readers. The result is an adaptation that readers can enjoy as a fresh approach to Malory's sprawling masterpiece. The book's most famous episodes--the sword in the stone, the cataclysmic final battle--are all here, while lesser-known key episodes stand

forth with new brightness and clarity. The text is accompanied by an up-to-date bibliography, including websites and video resources, and a descriptive index keyed--like the retelling itself--to the book and chapter divisions of William Caxton's first printed edition of 1485.

Historical Painting Techniques, Materials, and Studio Practice

Facing persecution in early modern England, some Catholics chose exile over conformity. Some even cast their lot with foreign monarchs rather

than wait for their own rulers to have a change of heart. This book studies the relationship forged by English exiles and Philip II of Spain. It shows how these expatriates, known as the “Spanish Elizabethans,” used the most powerful tools at their disposal—paper, pens, and presses—to incite war against England during the “messianic” phase of Philip’s reign, from the years leading up to the Grand Armada until the king’s death in 1598. Freddy Cristóbal Domínguez looks at English Catholic propaganda within its international and

transnational contexts. He examines a range of long-neglected polemical texts, demonstrating their prominence during an important moment of early modern politico-religious strife and exploring the transnational dynamic of early modern polemics and the flexible rhetorical approaches required by exile. He concludes that while these exiles may have lived on the margins, their books were central to early modern Spanish politics and are key to understanding the broader narrative of the Counter-Reformation.

Deeply researched and highly original, *Radicals in Exile* makes an important contribution to the study of religious exile in early modern Europe. It will be welcomed by historians of early modern Iberian and English politics and religion as well as scholars of book history.
