Glencoe Accounting: First Year Course, Student Edition
In the spring of 1968, the English faculty at the University of Wisconsin-Madison (UW) voted to remedialize the first semester of its

required freshman composition course, English 101. The following year, it eliminated outright the second semester course, English 102. For the next quarter-century, UW had no real campus-wide writing requirement, putting it out of step with its peer institutions and preventing it from fully joining the “composition revolution” of the 1970s. In *From Form to Meaning*, David Fleming chronicles these events, situating them against the backdrop of late 1960s student radicalism and within the wider changes taking place in U.S. higher education at the time. Fleming begins with the founding of UW in 1848. He examines the rhetorical education provided in the university’s first half-century, the birth of a required, two semester composition course in 1898, faculty experimentation with that course in the 1920s and 1930s, and the rise of a massive “current-traditional” writing program, staffed

primarily by graduate teaching assistants (TAs), after World War II. He then reveals how, starting around 1965, tensions between faculty and TAs concerning English 101-102 began to mount. By 1969, as the TAs were trying to take over the committee that supervised the course, the English faculty simply abandoned its long-standing commitment to freshman writing. In telling the story of composition’s demise at UW, Fleming shows how contributing factors—the growing reliance on TAs; the questioning of traditional curricula by young instructors and their students; the disinterest of faculty in teaching and administering general education courses—were part of a larger shift affecting universities nationally. He also connects the events of this period to the long, embattled history of freshman composition in the United States. And he offers his own thoughts on the

qualities of the course that have allowed it to survive and regenerate for over 125 years.

Almost from the moment of its creation in 1906, Ontario Hydro has been criticized for pursuing its own interests at the

expense of the public it was established to serve. In *Power at Cost*, Keith Fleming demonstrates that while Hydro exercised tremendous influence over its political masters in the Ontario government, it nevertheless cooperated with the public and a succession of provincial governments in formulating rural electrification policies.

From the beginning in the 1770s, singing was an important part of Shaker worship. In 1812-13 the Shakers published their first hymnal, 'Millennial Praises', which included texts without music. This scholarly edition of the hymnal joins the texts to original Shaker tunes. The CD includes historical recordings of six Shaker songs.
