In his latest book, bestselling author Cass Pennant takes an engaging and unparalleled look at some of the most volatile and violent scenes of fans following their football clubs to have unfolded over the past five decades, and examines the lengths to which many will go to put one over their local rivals. Here is history that also examines everything from the changing face of football violence, to who gets involved - and why. It looks, too, at how the 'firms' operate, both home and away, and at the effects of the football establishment's often counter-productive attempts to

contain hooliganism on the psychology of supporters. Has the war on hooliganism been successfully stamped out? Can it ever be won? This remarkable and informative book gives a frank examination of football violence to show how different inter-club and inter-regional rivalries have evolved - and features many first-hand accounts of incidents that make chilling reading. It builds up to provide the most comprehensive look behind the match-day madness and the activities of some of British football's most notorious hooligans, to give answers as to why these games are so important to supporters. The history of such infamous 'firms' as the ICF, the Bushwackers, the Headhunters, and the Red Army has never been fully documented . . . until now. *You're Going Home in a F\*cking Ambulance* is an eye-opening study of a problem that refuses to go away, by a writer who knows his subject inside-out.

A natural history of the wilderness in our homes, from the microbes in our showers to the crickets in our basements Even when the floors are sparkling clean and the house seems silent, our domestic domain is wild beyond imagination. In *Never Home Alone*, biologist Rob Dunn introduces us to the nearly 200,000 species living with us in our own homes, from the Egyptian meal moths in our cupboards and camel crickets in our basements to the lactobacillus lounging on our kitchen counters. You are not alone. Yet, as we obsess over sterilizing our homes and separating our spaces from nature, we are unwittingly cultivating an entirely new playground for evolution. These changes are reshaping the organisms that live with us -- prompting some to become more dangerous, while undermining those species that benefit our bodies or help us keep more threatening organisms at bay. No one who reads this engrossing, revelatory book will look at their homes in the same way again.

No one would ever argue that America has not had deep, ugly flaws, slavery and segregation being by far the most notable. But, thanks to great leaders like Abraham Lincoln and Dr. Martin Luther King, Jr., Americans bled and died to bring such hideous tragedies to an end. Today, conservative activists Vernon Robinson and Bruce Eberle see a new threat to the American republic – the radical left. The once great Democratic Party has been hijacked by radical leftists who spurn traditional American values, and seek to impose cradle to grave government control over our lives. *Coming Home* is not about just resisting these radicals, but triumphing over them – with a landslide victory for Donald Trump. Why are the authors of this book so certain that Donald Trump can route the radical left in 2020? The answer is a secret that they learned from the 2016 presidential campaign: black Americans not only gave Donald Trump his margin of victory in Pennsylvania, but they also did the same thing in the key state of Michigan. In reality, it was black Americans who made the election of President Trump possible. Tracing the historic events that caused black American disenfranchisement from the GOP, *Coming Home* also provides a strategic roadmap to persuading a crucial 20% or more of black Americans to vote for Donald Trump in 2020 – and ensure a second term. *You're Going Home in a F\*cking Ambulance* Max Zimmer

"The story of a boy growing up Mormon in America with a dream to play jazz trumpet. ... It begins in 1956. Young Shake Tauffler hears a line of music on the radio of a cattle truck that changes his life forever. The music is jazz. The instrument is a trumpet. His family is moving one last time - from a southern Utah ranch to a town outside Salt Lake - on his father's quest to bring his family from Switzerland to the heartland of the Mormon church. In two months, when Shake turns twelve, he'll join his buddies on a shared journey through the ranks of his father's take-no-prisoners religion. At the same time, armed with a used trumpet and his bike, he'll start another journey, on his own, to a place whose high priests aren't his father's friends but the Negro greats of jazz, men he's been taught to believe are cursed but from whose music he learns everything he dreams of being."--Back cover.

We're Going Home Penguin

A "persuasive and essential" (Matthew Desmond) work that will forever change how we look at life after prison in America through Miller's "stunning, and deeply painful reckoning with our nation's carceral system" (Heather Ann Thompson). Each year, more than half a million Americans are released from prison and join a population of twenty million people who live

with a felony record. Reuben Miller, a chaplain at the Cook County Jail in Chicago and now a sociologist studying mass incarceration, spent years alongside prisoners, ex-prisoners, their friends, and their families to understand the lifelong burden that even a single arrest can entail. What his work revealed is a simple, if overlooked truth: life after incarceration is its own form of prison. The idea that one can serve their debt and return to life as a full-fledge member of society is one of America's most nefarious myths. Recently released individuals are faced with jobs that are off-limits, apartments that cannot be occupied and votes that cannot be cast. As *The Color of Law* exposed about our understanding of housing segregation, *Halfway Home* shows that the American justice system was not created to rehabilitate. Parole is structured to keep classes of Americans impoverished, unstable, and disenfranchised long after they've paid their debt to society. Informed by Miller's experience as the son and brother of incarcerated men, captures the stories of the men, women, and communities fighting against a system that is designed for them to fail. It is a poignant and eye-opening call to arms that reveals how laws, rules, and regulations extract a tangible cost not only from those working to rebuild their lives, but also our democracy. As Miller searchingly explores, America must acknowledge and value the lives of its formerly imprisoned citizens. Jaya is from Trinidad, Maria is from Mexico, and Lola is from Slovakia. The girls couldn't be more different, except for two things: They're all the daughters of maids and nannies in their prosperous suburban town of Meadowbrook, and they all long to fit in and succeed among their more privileged peers. But when Jaya's mother is accused of stealing some valuable jewelry from her employer, the seemingly liberal town of Meadowbrook becomes a place of ugly tensions and racism, and the girls' friendship threatens to buckle under the strain. Once again, Marina Budhos has written a thoughtful and ambitious novel about class and the cultural differences that can both divide and unite.
