Gebrauchsanweisungen machen Spaß - aber nur, wenn man sie nicht zur Inbetriebnahme eines technischen Geräts braucht. Sonst nämlich schlägt das Lachen über die Sprachkapriolen radebrechend übersetzter Aufbau- und Bedienungsanleitungen schnell in hysterisch-verzweifelter Kichern um. Ob wohlmeinender Ratschlag ("Vor dem Einfüllen der Wäsche

darauf achten, dass sich keine eingeschperrten Tiere in der Trommel befinden."), eine Empfehlung für ein Diätpulver ("Produkt mit sehr gute Geschmack und verschiedene Nahrungsgeschmäckchen"), oder das Verhalten im Brandfalle in einem südeuropäischen Hotel ("Nehmen Sie die Zimmerschlüssel, kriechen Sie zur Tür"): Immer ist Lesespaß garantiert, sofern man den Erzeugnissen internationaler

Entwicklerprosa und diverser Übersetzungscomputer im Kantischen Sinne "interesselos" gegenübersteht. Am Ende ist man nur noch dankbar für die Rücksicht auf die Umwelt: "Für neue Batterie alt Batterie zurück für Sauberkeit in deutscher Wald!"

The iPhone and iPad allow user positioning via multiple methods, including GPS. The growing number location-aware, and location-fenced, applications now arriving in the App

Store make heavy use of these abilities. This book walks you through the basic tools you need to build geo-aware applications before diving into the available third-party geo-SDKs available for the iOS platform.

It's 1989 and, whenever he isn't hanging out in the local bars, Herr Lehmann lives entirely free of responsibility in the bohemian Berlin district of Kreuzberg. Through years of judicious sidestepping and heroic indolence,

this barman has successfully avoided the demands of parents, landlords, neighbours and women. But suddenly one unforeseen incident after another seems to threaten his idyllic and rather peaceable existence. He has an encounter with a decidedly unfriendly dog, his parents threaten to descend on Berlin from the provinces, and he meets a dangerously attractive woman who throws his emotional life into confusion. Berlin Blues is a richly entertaining evocation of life in the city and a classic of modern-day decadence.

In "The Devil's Diaries," Monty Python meets Bridget Jones with a little more fire and a lot more brimstone. In his own words, Satan muses on key dates throughout his tory--reveling in his role as the mastermind behind the Fall, rock 'n' roll, Y2K, and, of course, global warming. The Dark One grumbles at the way some of his best work has been hijacked and credited elsewhere, and confesses his
