Using a three-part perspective on the traditional art, this guide illustrates how wing chun kung fu is still deadly and effective in the context of modern combat. The first part addresses fundamentals such as the history, life benefits, concepts, principles, and basic training—including footwork, kicks, arm movements, and reflexes—that characterize the art. Bridging the gap between wing chun and other fighting styles, the second portion explains how a wing chun artist is able to exploit the vulnerabilities in defensive and offensive systems such as kickboxing, grappling, and karate. The third and final section discusses how this particular brand of kung fu is highly effective in street combat—both empty-handed and with weapons—as well as against single and multiple opponents.  
*A Social History of the Southern Chinese Martial Arts*  
North Atlantic Books  
An Expose' on Wing Chun Kung Fu delves into the mysteries of this beautiful but deadly Chinese system. It gives an in-depth explanation on the concepts, principles and theories behind the intricate art of Wing Chun Kung Fu. The training methods behind the Sil Lim Tao form are revealed. The book also covers a variety of diverse and complex training methods unique to the Wing Chun system, with photos showing the exact training sequences. An exciting book for any martial artist who would like to

understand the science behind the Art of Wing Chun more deeply.

## **An Expose on Wing Chun Kung Fu** Tuttle Publishing

Looks at southern Chinese martial arts traditions and how they have become important to local identity and narratives of resistance. This book explores the social history of southern Chinese martial arts and their contemporary importance to local identity and narratives of resistance. Hong Kong's Bruce Lee ushered the Chinese martial arts onto an international stage in the 1970s. Lee's teacher, Ip Man, master of Wing Chun Kung Fu, has recently emerged as a highly visible symbol of southern Chinese identity and pride. Benjamin N. Judkins and Jon Nielson examine the emergence of Wing Chun to reveal how this body of social practices developed and why individuals continue to turn to the martial arts as they navigate the challenges of a rapidly evolving environment. After surveying the development of hand combat traditions in Guangdong Province from roughly the start of the nineteenth century until 1949, the authors turn to Wing Chun, noting its development, the changing social attitudes towards this practice over time, and its ultimate emergence as a global art form.

Wing Chun Kung-Fu North Atlantic Books  
This is the second book in my collection and is suitable for home study via my distance learning course or just simply to help you with your knowledge of wing chun, this book is the intermediate level of wing chun known as Chum Kiu or Bridge seeking, you should read and absorb the first Book for Siu Lim Tau before attempting this as you will just create a whole bunch of mistakes in your wing chun.

The Wing Chun Compendium explains the theory of wing chun from a technical, lifestyle, and philosophical perspective. Written by Wayne Belonoha—a certified Ving Tsun Instructor and National Certified Coach, 7th Level, Master Degree—the compendium offers hundreds of tips and techniques specifically designed to help readers advance to the next stage. The Wing Chun Compendium is divided

into eight sections, including Theory, Techniques, Drills, Chi Sau (Sticky Hands), Forms, Pressure Points, Health and Fitness, and Terminology. Students of all levels will find tips for improving technique and gaining benefits from the book's instruction in over 20 of the top skill-building drills and exercises, such as the Maai Sang Jong and Bong Guek (Sticky Legs) drills. Covering all three hand forms (Siu Nim Tau, Cham Kiu, and Biu Ji), it also provides a detailed examination of each movement and application and features an extensive terminology section that includes the Chinese characters and both Cantonese and Mandarin pronunciations for over 200 of the most common wing chun terms. The compendium concludes with Grandmaster Sunny Tang's special article, "Reflections of Siu Nim Tau After 30 Years."

Wing Chun Kung Fu Weiser Books  
Analyzing the systems concepts, theory, physical exercises and fighting application, the reader is taken from the basic ideas of the system into its advanced stages of training in order to maximize the physical and mental benefits gained from its practice. The Sui Lum Tao and Chum Kui form actions and applications are discussed in detail and explained in a way the reader can understand slowly and fully, with the exercises commonly practiced within the system broken down to their individual component parts. The technical information is based on Wing Chun practices that transcend lineage, but adhere to the universal principles of the system, exposing information and training methods that could be currently lacking from your daily practice. From a novice to the martial arts to an advanced practitioner, fighter to philosopher, this book will help you achieve much more from your dedicated practice.

**The History and Principles of China's Most Explosive Martial Art** Lulu Press, Inc  
Covers the principles of the forms for Baat Cham Dao (the eight slashing or chopping knives form) and Luk Dim Boon Kwun (six and a half point pole). Gives clear, concise explanations of the shape, structure and movements of the weapons forms, and applications where appropriate. Illustrates each section of the forms in detail with step-by-step photographs. Provides an essential training checklist to each key technique within the forms. Examines the benefits of training in the weapons forms.

*Wing Chun Kung Fu* Energetics  
The story of Duncan Leung ? childhood friend of Bruce Lee, disciple of legendary master Yip Man, and New York kung fu teacher ? is valuable not only for its insights into martial arts but also for its

portrayal of the lost Hong Kong of the 1950s and 1960s. Each anecdote is introduced with a proverb or teaching from Chinese philosophy, and illustrations follow each fight story, making for an educational and entertaining read.

**Wing-Chun Martial Arts Action Pursuit Group**  
Not simply a training manual but a combat survival guide, *Fighting and Grappling* is a challenging book for all students of the martial arts. In this second volume of *Wing Chun Kung-Fu: A Complete Guide*, the techniques introduced in *Basic Forms and Principles* are shown in combat situations. The combat applications of Wing Chun's sticky-hand, sticky-leg, and grappling and throwing techniques are shown in detail and are fully illustrated. A chapter on the controversial poison touch (dar mak) explains the effect of strikes to the weak points of the human body in terms of both acupuncture and modern medical theory. Finally, the author argues that the martial arts must evolve and develop new techniques to meet a changing environment. He shows this process of integration in action, uniting White Crane kung-fu and Thai kickboxing with Wing Chun to produce a complete and devastating new fighting system.

**Third Level -- Bil Jee** SUNY Press

Bruce Lee's original art (wing chun) and the art he developed (jeet kune do) are compared by Lee's associates. Includes stances and footwork, hand and leg techniques, tactics, and self-defense.

*Wing Chun - Kung Fu - Closing the gap with Chum Kiu (Home Study Edition)*

**SIMPLY WING CHUN KUNG FU** Wing Chun Kung Fu Traditional Chinese King Fu for Self-Defense and Health

Just like a handshake, the practice of martial arts should be instinctive. Since 1968, Sifu Robert Smith has been training and teaching martial arts to serious students. *Punch Notes* provides people at all martial art levels with invaluable, simple, to the point information. A must-read for anyone seeking to improve self-defense skills.

**Complete Wing Chun** Crowood

Wing Chun Kung Fu has a long history but it has only been taught openly since the 1950s when Grandmaster Yip Man revealed the secrets fo the art and began to teach large numbers of students in Hong Kong. Characterized by economical movements, simple and direct short-range simultaneous attack and defence hand techniques, as well as powerful low kicks,

Wing Chun Kung Fu is now one of the most popular of the Chinese martial arts. One of the advanced training tools of the Wing Chun system is the Muk Yan Jong, more commonly known as the Wooden Dummy. Shaun Rawcliffe provides a comprehensive consideration of the Wooden Dummy techniques and uses practical applications as examples of how they may be used. Covers the full 116-movement Wooden Dummy form as taught by Grandmaster Yip Man to his eldest son, Ip Chun, who then taught the author. Provides detailed explanations of the shape, structure and movements of the Dummy form, plus an example of each of the applications. Presents in-depth explanations of the principles and concepts behind the Wooden Dummy form and the supporting drills. Examines the scientific and anatomical explanations of the basic principles underlying Wooden Dummy training. A fascinating and invaluable book which comprehensively covers one of the advanced training tools of the Wing Chun system, Muk Yan Jong or the Wooden Dummy. Aimed at all those who practice Wing Chun Kung Fu, especially those who wish to learn more advanced techniques, together with martial artists in general. Well illustrated with over 400 colour photographs and useful drawings. Sifu Shaun Rawcliffe is one of the highest qualified and certified Wing Chun instructors in the world.

Fighting & Grappling Hong Kong University Press  
The art of Wing Chun is a fast, direct, no nonsense style of Kung Fu made famous by Bruce Lee. It inspired him in his search for the perfect martial art style. Our series, written by K. T. Chao and John Weakland presents the three levels of training: Siu Lim Tao, Chum Kil, Bil Jee. This is the second or intermediate level, Chum Kil (Kiu). All the training necessary to achieve the second level is clearly presented in the book. It is lavishly illustrated by photographs and direct descriptions of each movement.

### **A Guide to Practical Combat and Self-Defense** Paul Crompton

Wing Chun is the most popular form of Chinese Kung Fu in the world today, with over four million practitioners. The art as it is presently understood has been handed down from teacher to student for more than three hundred years. Until now, no one has ever stepped back and taken a critical look at why this art's techniques are presented and performed the way they are. This book, by Wing Chun master Danny Xuan and martial-arts authority John Little, is the first to decipher these techniques that until now have been encrypted within this art. Xuan and Little reveal how Wing Chun was designed holistically, based on the laws of physics, human nature, and biomechanics. It was also designed with economy,

efficiency, and productivity in mind. Unlike other martial arts, Wing Chun doesn't focus on making a person larger, more rugged, acrobatic or animal-like; rather, it focuses on making optimal use of one's own bodily structure and power potential by applying the sciences of biomechanics and physics. Thus, it is possible for males and females of all ages and sizes to excel in this art. The Tao of Wing Chun provides a readable, authoritative means of cultivating personal protection skills, enhanced flexibility, improved coordination, greater stamina, and physical and mental fitness while simultaneously cultivating humility, focus, determination, self-confidence, character, camaraderie, and deep inner strength. Foremost, this book offers the reader the means by which to apply Wing Chun principles in daily life. Enhanced by forty-eight full-color illustrations, The Tao of Wing Chun will fascinate, educate, and entertain a wide range of readers—from beginner to master.

### **Wing Chun Kung Fu** Crowood Press

In this book, the keys to the Ip Man Wing Chun Kung Fu system are explained. The three hand sets are shown in detail, along with the application of the key movements. One of the keys to Wing Chun is laying a proper foundation. The first form Siu Lim Tao (Little Idea) is the development of that foundation. Here, you will be introduced to the proper reference points for the structure of the defensive tools and offensive weapons of Wing Chun. The second form, Chum Kiu (Seeking the Bridge), introduces the keys to fighting application of Wing Chun. While the first form teaches the correct structure of the attacks and defensive movements, it is in Chum Kiu that the student learns to seek the bridge and use both hands simultaneously, such as one hand defending while the other attacks. Chum Kiu teaches stepping and footwork, and also Wing Chun's specialized kicking method and the generation of power thru the correct method of using the entire body in stance turning (Yiu Ma). The third form,
