Days and Nights of Love and War is the personal testimony of one of Latin America's foremost contemporary political writers. In this fascinating journal and eloquent history, Eduardo Galeano movingly records the

lives of struggles of the Latin American people, under two decades of unimaginable violence and extreme repression. Alternating between reportage, personal vignettes, interviews, travelogues, and folklore, and richly conveyed with anger, sadness, irony, and occasional humor, Galeano pays loving tribute to the courage and determination of those who continued to believe in, and fight for, a more human existence. The Lannan Foundation awarded the 1999 Cultural Prize for Freedom to Eduardo Galeano, in

recognition of those "whose extraordinary and courageous work celebrates the human right to freedom of imagination, inquiry and expression."

This volume offers readers new openings through which to understand critical but overlooked ideas about religion–state relations. It decenters discussions away from national narratives allowing for emerging voices at the individual and community levels, highlighting interactions of people with the

state over questions about religion.

This is the first book in English to examine the Mizrahi Jews (Jews from the Muslim world) in Israel, focussing in particular on social and political movements such as the Black Panthers and SHAS. The book analyses the ongoing cultural encounter between Zionism and Israel on one side and Mizrahi Jews on the other. It charts the relations and political struggle between Ashkenazi-Zionists and the Mizrahim in Israel from post-war relocation through to the present day. The author examines the Mizrahi political struggle and resistance

from early immigration in the 1950s to formative events such as the 1959 Wadi-As-Salib rebellion in Haifa; the 1970s Black Panther movement uprising; the ' Ballot Rebellion ' of 1977; the evolution and rise of the SHAS political party as a Mizrahi Collective in the 1980s, and up to the new radical Mizrahi movements of the 1990s and present day. It examines a new Mizrahi discourse which has influenced Israeli culture and academia, and the nature of the political system itself in Israel. This book will be of great interest to those involved in Middle East Studies and Politics, Jewish and Israeli Studies and Race and Ethnic Studies. Muqarnas, Volume 25 Post

Located on the Temple Mount in Jerusalem, the Dome of the Rock was constructed at the end of the seventh century by order of caliph 'Abd al-Malik. This seminal structure has been much studied but no definitive interpretation yet exists of the meanings conveyed by the Dome at the time of its completion. The recovery of meaning is complicated by the paucity of primary written sources relating to the construction phases of the building and the motivations of its patron. This book concentrates on

the most important surviving inscribed objects in order to primary text, the long mosaic inscription running around the interior. Comprising a dedication and date (72/691-92) and material of a religious nature, the mosaic inscription provides vital evidence for the reconstruction of the meanings and functions of the Dome of the Rock. The detailed study of the mosaics helps to place them in the context of Late Antique monumental writing, particularly in Greek. The book makes use of contemporary Islamic coins, graffiti, and other

examine the Dome of the Rock in the relation to the ideological concerns of the Umayyad elite during and after the second Civil War. A Perilous Path MIT Press Following the tradition and style of the acclaimed Index Islamicus, the editors have created this new Bibliography of Art and Architecture in the Islamic World. The editors have surveyed and annotated a wide range of books and articles from collected volumes and journals published in all European languages (except Turkish) between 1906 and 2011. This comprehensive bibliography is

an indispensable tool for everyone involved in the study of material culture in Muslim societies.

"This book bears powerful witness to the gospel of Jesus Christ and to the faith and hope of Palestinian Christians living in the Occupied Territories. Melanie May introduces and presents the remarkable public statements made by the Jerusalem Heads of Churches over the course of two decades, from 1988 to 2008. Through Jerusalem Testament the voices of Palestinian pastors speak out on behalf of their own people, calling Christians worldwide to a new covenant with their brothers

and sisters in and around Jerusalem." --Book Jacket.
In Harm's Way BRILL
During recent armed conflicts - such as those in Iraq, the former Yugoslavia, and Rwanda - public attention was repeatedly caught by images of children, both as civilians and as soldiers. Those conflicts, like so many others, were vivid reminders that where there is armed conflict there are also, almost always, children. Soldiers and officers fulfil many roles in relation to such children - sometimes as combatants, sometimes as

humanitarian workers, sometimes as protectors, and/or sometimes as enemies and abusers. This book aims to address three main questions: what are the obligations of officers of national armed forces in relation to children, either civilians or combatants, whom they or those under their command may encounter while participating in situations of armed conflict? How realistic and achievable are these obligations? How can compliance with them be encouraged, monitored, and/or enforced? The book

examines these questions in the context of military training. In doing so, it has another inextricably linked aim: to see if there are ways in which the training of officers can improve the protection of children in armed conflict situations, in accordance with international law and policy. It is intended for use particularly by those involved in training of national armed forces, including officers themselves, and members of governments, non-governmental organisations (NGOs) and inter-governmental

organisations. It is hoped that it will also be of interest to lawyers, academics and others concerned with 'child rights' and related law and policy. It contains examples of actual training materials that can be modified for use in different countries and contexts.

In 1984 Evangelicals for Social Action founder Ron Sider posed the questions, What would happen if we in the Christian church developed a new nonviolent peacekeeping force ready to move into violent conflicts and stand peacefully between warring parties? . . . Everyone assumes that for the sake of peace it is moral and just for soldiers to get killed by the

hundreds of thousands, even millions. Do we not have as much courage and faith as soldiers? Christian Peacemaker Teams (CPT) has been trying to answer those questions since 1986. CPT has responded to invitations from grassroots organizers on five continents who are using nonviolent strategies to confront systemic oppression. This book provides a glimpse into the mistakes and successes, the triumphs and tragedies, that teams have shared in with local co-workers in various nations. It also continues to pose the question, What would happen if CPT's efforts were multiplied by millions of Christians with a radical commitment to Jesus's nonviolent gospel?

Undead trilogy in this 3-in-1
eBook bundle from author Eric
Wilson. The suicide of Judas
Iscariot in AD 30 left his blood
seeping into the soil of the Field
of Blood, in Aramaic the
Akeldama. This tainted blood
caused a counterfeit resurrection
of the dead—the Collectors, who
seek to corrupt and destroy.
When Jesus was resurrected,
ancient scripture says many rose
from the grave. Today, 36 from
this group of undead
remain—the Nistarim, who are
here to watch over the world and
protect against the Collectors.
Field of Blood follows Gina
Lazarescu, a Romanian girl with

a scarred past who has no idea she is being sought by these undead. Gina realizes her future will depend on her understanding of the past, yet how can she protect herself from Collectors who have already died once but still live? Gina's journey continues in *Haunt of Jackals*. The Nistarim and the Collectors are after a single target—a boy named Pavel who may possess the key to the Collectors' unlimited power . . . or ultimate downfall. Gina has survived one battle with the undead already and is determined to protect Pavel at all costs. But she has no idea how

long she can stay a step ahead of the Collectors. In the final installment of the Jerusalem's Undead Trilogy—*Valley of Bones*—readers will witness an epic showdown of a battle between good and evil that started with the suicide of Judas Iscariot. Gina Lazarescu's life has been on a collision course with the Akeldama Collectors. She knows she can't defeat them on her own, though, and that it will take the combined efforts of all Those Who Resist for this living evil to be stopped.

Exposing the moral and strategic deficits of the Obama, Clinton and Kerry approach to world affairs, *A Perilous Path* takes a close look at American history, while at the same time providing fresh, thought-provoking analysis. It calls for renewal of the best American foreign policy traditions, which emphasize “peace through strength” and human rights. Anne R. Pierce tells the fascinating story of Obama administration foreign policy and illustrates its disturbing consequences. She shows that President Obama

and his Secretaries of State expended more effort in improving relations with dictatorships than in strengthening ties with democracies or encouraging ideas of freedom. With meticulous research, Pierce documents the administration ' s decisions and discusses its worldview. She reveals vital information regarding Hillary Clinton ' s tenure as Secretary of State, providing a cautionary account of what we can expect from a Clinton presidency. Whoever becomes president,

A Perilous Path offers a moral and strategic compass for both policymakers and the public.

Imagine a capitalist paradise. An island utopia governed solely by the rules of the market and inspired by the fictions of Ayn Rand and Robinson Crusoe. Sound far-fetched? It may not be. The past half century is littered with the remains of such experiments in what Raymond Craib calls " libertarian exit. " Often dismissed as little more than the dreams of crazy, rich Caucasians, exit strategies have been tried out from the southwest Pacific to the

Caribbean, from the North Sea to the high seas, often with dire consequences for local inhabitants. Based on research in archives in the US, the UK, and Vanuatu, as well as in FBI files acquired through the Freedom of Information Act, Craib explores in careful detail the ideology and practice of libertarian exit and its place in the histories of contemporary capitalism, decolonization, empire, and oceans and islands. Adventure Capitalism is a global history that intersects with an array of figures: Fidel Castro and the Koch brothers, American segregationists and Melanesian socialists, Honolulu-based real estate speculators and British Special Branch spies, soldiers of fortune and English lords, Orange

County engineers and Tongan navigators, CIA operatives and CBS news executives, and a new breed of techno-utopians and an old guard of Honduran coup leaders. This is not only a history of our time but, given the new iterations of privatized exit—seasteads, free private cities, and space colonization—it is also a history of our future.

[Intra-Jewish Conflict in Israel](#) Edinburgh University Press Since its original publication, Conflicts in Curriculum Theory has firmly established itself as the key volume that not only advanced alternative ways to think about education and curriculum but also introduced innovative scholarship and a radical conceptual grammar for the field. In this revised second edition, Paraskeva addresses current epistemological shifts and avenues within and beyond counter-dominant Eurocentric

curriculum perspectives. In this second edition, which includes a new introduction, he provides a critical examination of the modern Eurocentric curriculum and introduces readers to new theoretically rich concepts of "curriculum momentism," "curriculum involution", and "curriculum Occidentosis", pushing the curriculum debate far beyond the classical Eurocentric matrix.

William Blake and the Body re-evaluates Blake's central image: the human form. In Blake's designs, transparent-skinned bodies passionately contort; in his verse, metamorphic bodies burst from each other in gory, gender-bending births. The

culmination is an ideal body uniting form and freedom. Connolly explores romantic-era contexts like anatomical art, embryology, miscarriage and twentieth-century theorists like those of Kristeva, Douglas, Girard to provide an innovative new analysis of Blake's transformations of body and identity.

Über die Pal ä stina-Frage scheint schon alles gesagt. Das Buch von Petra Wild beweist das Gegenteil. Es orientiert sich an den neuesten

Erkenntnissen der Kolonialismus- und Genozidforschung, die den Zionismus als eine Form des europäischen Siedlerkolonialismus ausweisen. Nach einer Einführung in den Ursprung des palästinensisch-israelischen Konflikts und den exklusiv ethno-religiösen Charakter des Staates Israel wird in diesem Werk detailliert auf die israelische Politik gegenüber den Palästinensern innerhalb der Grenzen Israels und in den 1967 besetzten Gebieten

eingegangen. Diese wird von israelischen, palästinensischen und internationalen Menschenrechtsorganisationen wie auch von UN-Organisationen immer wieder als Apartheid angeprangert. The Gentleman's Magazine Martinus Nijhoff Publishers Digital practices in social and political landscapes: Why two researchers can look at the same feature and see different things. Maps are widely believed to be objective, and data-rich computer-made maps are iconic examples of

digital knowledge. It is often claimed that digital maps, and rational boundaries, can solve political conflict. But in Mapping Israel, Mapping Palestine, Jess Bier challenges the view that digital maps are universal and value-free. She examines the ways that maps are made in Palestine and Israel to show how social and political landscapes shape the practice of science and technology. How can two scientific cartographers look at the same geographic feature and see fundamentally different things? In part, Bier

argues, because knowledge about the Israeli military occupation is shaped by the occupation itself. Ongoing injustices—including checkpoints, roadblocks, and summary arrests—mean that Palestinian and Israeli cartographers have different experiences of the landscape. Palestinian forms of empirical knowledge, including maps, continue to be discounted. Bier examines three representative cases of population, governance, and urban maps. She analyzes Israeli population maps from

1967 to 1995, when Palestinian areas were left blank; Palestinian state maps of the late 1990s and early 2000s, which were influenced by Israeli raids on Palestinian offices and the legacy of British colonial maps; and urban maps after the Second Intifada, which show how segregated observers produce dramatically different maps of the same area. The geographic production of knowledge, including what and who are considered scientifically legitimate, can change across space and time. Bier argues

that greater attention to these changes, and to related issues of power, will open up more heterogeneous ways of engaging with the world.
