The Human Mosaic Oswaal Books and Learning Private Limited

Like no other textbook, Pulsipher and Pulsipher's World Regional Geography puts a human face on the study of regional geography, showing how larger geographical forces affect the lives of individuals and communities around the globe. It's a refreshing, people-centered approach to the subject focusing on the stories of real people, global trends and interregional linkages, and contemporary topics that transcend regional borders (the war on terrorism, global political order, interregional trade, the global economy, popular culture, the environment, and the Internet).

Are you looking for a fun and challenging quiz to tackle solo? Or looking to tackle it with friends and family? Or looking for a big bank of questions for a pub quiz/quiz night? Here's what you will discover with this book: 720 multiple choice questions: Choose from 4 possible answers from each question. Unlike other quiz books we have seen out there - possible answers in The Ultimate Geography Quiz book are meant to be challenging and the possible answers are well researched to truly make you think - see below for more details. Challenging questions throughout: Made to really engage the brain cells, even for the die-hard geographers! Child/Family friendly questions: No sensitive topics are asked about within this book. Keep Score: Optional scoring system to measure your quizzing ability! Matte paperback cover for durability and ease of carrying, so your child can tackle questions at home or on the go. Tackle the quiz alone, with your partner, or make it a social event with your friends and family! Quizzes are great on commutes, and long drives - and equally as great as a social fun event for friends and family. You cannot go wrong with a quiz night! This book makes a perfect gift for adults and children with an interest in geography. Recommend age 12+
Question topics within The Ultimate Geography Quiz include, but not limited to: Country and continent names, size, borders and locations respective to each other. Mountain, mountain heights, mountain range and volcano names and their locations. Ocean, seas, marginal seas, and their locations respective to each other City, building, landmark and capital city names and location. Deserts, forests, jungles, glaciers! Country size, flags, language currency, religion, climate and population. Flag, flag colors, other flag attributes. Physical Geography jargon. World record facts regarding geography. Challenging multiple choice questions: We have seen several quiz books that have a poor selection of multiple choice questions, such as example below...
What is the highest mountain in Turkey? A Mt. Whitney B Mt. Everest C Mt. Ararat D Mt. Cook
Whilst this question is somewhat tricky in itself, the answers given allow most geographers to eliminate the 3 wrong answers quickly to come up with answer C. Instead of this approach, we have kept the quiz more like shown below to make this strategy of quizzing harder for the challenger...
What is the highest mountain in Turkey? A Mt. Elbrus B Mt. Davamond C Mt. Ararat D Mt. Bazarduzu
Although it may be easy for some seasoned geographers, this question, by the choices given is harder for the most part, and will hopefully trigger more conversation/thought before answering. Order your copy now for hours of endless fun. Be sure to check out other books in our range by clicking on the Author Page!
